MERGE FLOOR MOUNTED & OVERHEAD BRACED SYSTEM

DESIGNED FOR DURABLE ELEGANCE

Welcome to Cubispec

Our business and our reputation are built on the quality of our design, our local manufacturing expertise and our customer care.

Working with architects and designers, we create toilet and shower cubicles that function beautifully, and provide lasting style and elegance.

When you're planning your next project, call Cubispec and we'll work with you to optimise the design, and help you create clean, fresh environments that customers appreciate and enjoy.

Suitable for

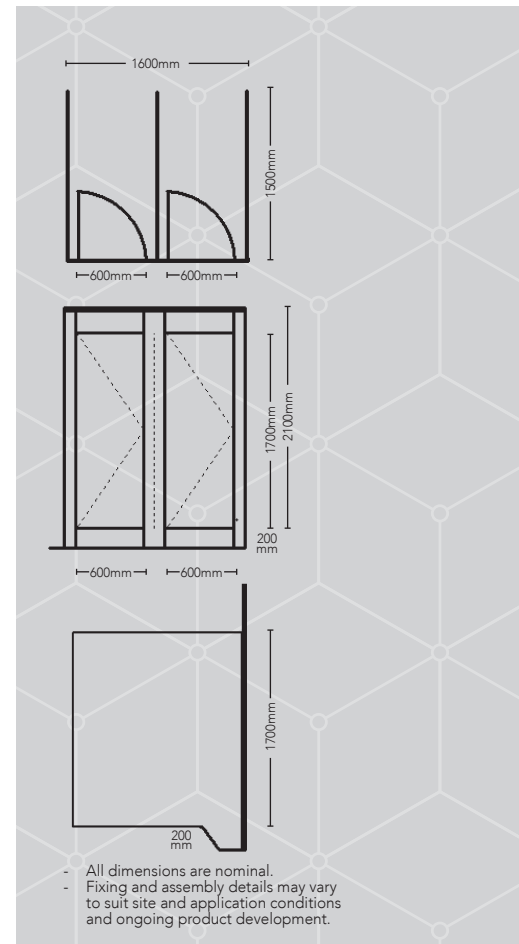

- Restaurants
- Bars
- Schools
- Hotels
- Office Blocks
- End of Trip Facilities
- Caravan Parks

The Merge - Designed for Durable Elegance

High usage bathroom areas can also be tasteful, offer enhanced privacy, and provide architects with a spectrum of design choices. Cubispec's Merge Floor Mounted and Overhead Braced system offers you the opportunity to combine durability with style, while meeting even the most demanding client brief.

Available in a wide range of colours, materials and finishes for both shower and toilet cubicle construction, the Merge series is floor mounted for maximum strength, and features tough anodized aluminium head rail and channels for heavy duty wearability, and an optional gapless rebate door for improved privacy.

You can rely on Cubispec's experience and flexibility in washroom system design, manufacture and installation – our objective is always to make you look good.
